

White Gold CHAROLAIS SALE

ULTIMATE Red & Black

SIMMENTAL SALE

FLECKVIEH EQUATION

FULLBLOOD SIMMENTAL SALE

HERD SIRES - BRED HEIFERS - HEIFER CALVES

Saturday · Vecember 20 · 2025

1:00 pm MST · Westerner Park · Red Deer, AB

Welcome to the 2025 edition of what's quickly becoming known as the "Trio" Sale. The addition of White Gold to the Simmental weekend just made sense when we first tried it three years ago—and time has certainly proven it. These two breeds complement each other like no others, creating a synergy that elevates the entire event.

Rather than thinking of it simply as the "Simmental weekend," we believe Saturday, December 20th deserves its own identity: Super Saturday—the day when these powerhouse breeds come together to deliver one of the most exciting sales of the entire year.

We strongly believe in creating a place where new and upcoming breeders can market their bulls and females alongside established programs. The Trio Sale has become the ideal venue for exactly that. We also want to take this time to thank the consignors who have been here with us for over a decade—we deeply value that loyalty.

It's an incredible time to be in this industry, with prices still hovering near recent record highs. This sale truly has something for everyone. Whether you're searching for a show prospect to hang a halter on or a profitable herd-bull maker, you'll find it here.

This year, we are pleased to welcome new consignors, returning consignors, and a few familiar names who need no introduction. On behalf of all these consignors, the Transcon team invites you to join us on December 20th at Westerner Park for the White Gold, Ultimate Red & Black, and Fleckvieh Equation sales.

If you're unable to attend in person, please don't hesitate to reach out to anyone on the Transcon team for conflict-free bidder representation.

Sincerely, Cody Coupland

Lady Mae is a special heifer; her mom is headed to the donor pen this spring as she can produce the big power that this breed is known for and is so structurally correct. She milks and is so big bodied yet moves out and travels really well on very good feet. I truly believe this is a heifer that will crank out excellent bulls that will be easily marketable. Power, productivity and highly sought after genetics on both sides of her pedigree. This one is really tough to let go!

Carly cow family is just about to blossom for us and the other breeders that have acquired Carly females from us, exciting times ahead for this cow family. Really nice udders, good milking and longevity in the cow family. Carly has that great show look, easy on the eyes, and great on paper, and sired by PCC Husk! A combination that will have high ROI!

We aimed to bring two hairy, stylish heifer calves to town, and these Kickstart heifers truly stood out all summer. We're excited to show case these two females, out of the previous show bull of the year! If you're looking to raise some ranch-style bulls, these heifers are perfect for the job. The Kickstart bulls are looking fantastic, but we're just as eager to see the females hit production! Lot 5 owned with TF Cattle Co Ltd.

Selling Choice

When Cody toured in the summer and asked if he could have one of our top two heifer calves....... I said no. As time passed, I realized at some point we were going to have to let a good female go. I told Cody I would bring two home and he could have one. As more time has passed, I think it is best for you to pick which one Cody can have! Things that have made the decision impossible for me...... as most already know we bought two different packages of bred cows, one from the Thurston's and another from the Weston's. Well, these two heifers are the daughters of what I feel could be the best cow from each herd...... 3B was one of the first cows we seen the day we went to Wendall's. I remember having him stop the side by side so I could get out and take a picture of this magnificent female. Needless to say, when it came time to decide which cow we could use as a donor female she was one we wanted in there for sure. 353F has proven she gets the nod from the Thurston cows! Not only does she have 3 daughters working for them, but we were able to bring her heifer calf with us when the brought the cows home. Yes, this makes 522N her fifth daughter to be in production. I should also add that one of our best bulls last year was a 353F son! See all this makes the decision difficult!! The best news is either way you won't be wrong and either way I am thrilled to bring the other one back home! Genetic Tests have been ordered and are awaiting the results.

Here is something new for us, our first Charolais consignment. We bought this heifers dam at this very sale as our first Charolais female from the great people of Eagle Valley Farms the Kruger's. Ms Bourbon is her first calf, and we are excited about this heifer and her dam. Great haired, long bodied very attractive look with a sweet front end. Her dam EVF Carly 318L has a great udder, nice teat placement and size. Powerful moderate framed cow that has matured into a very beautiful cow. Sired by the poplar Bourbon bull who whose dam needs no introduction. From showing to producing Berkly Ann 8507 has accomplished a very great track record. This heifer has a lot to offer and has been managed to last. This new journey into the Charolais breed has us very excited.

Miss Nalani 10N is a deep-bodied, soundfooted heifer that brings together a balanced pedigree and impressive numbers. Sired by TRI-N Colorado Low 208K, she carries his trademark depth, muscle shape, and overall eve appeal, while her dam, JIL Hawaii 102J, contributes a strong maternal foundation and excellent udder quality. Her WW, YW, MTL, TSI, CW, and REA EPDs all rank in the top 15%, underscoring her blend of performance and carcass merit. Nalani is a complete, attractive package; the kind of female that will develop into a productive, high-quality brood cow with plenty of future in any herd.

Welcome to Transcon's Ultimate Red and Black XXVIII. We would like to extend a Thank you to the Transcon Livestock Team, our bidders and buyers from previous sales, McEwen's in Stony Plain, Masterfeeds and our Vets at Barr-North and Morenergy Vet services! We couldn't do all that we do without all of you.

This is our fourth year consigning heifers to this sale and we figured we would offer four breds for four years! Three bred heifers off of our main herd bull Kruz and one bred heifer off our bombproof heifer bull Jacob. We purchased a package of Wheatland Monument 28H and bred two of the heifers likewise, one to LENG MOTO MOTO 75M, (who was set to be a sale feature but split his toes on icy ground prior to our bull sale) and the final heifer was bred to our exciting Walk the Line son BLI Line Walker 2312L, whose calves come out fast and get to growing guickly.

Herd health -

First defense Dual Shield, Inforce 3, Vit ADE, Selenium - Birth Ultra Choice 8 - April 2024, March 2025, October 14, 2025 Bovishield gold one shot - September 2024

First dose of Scour Bos 9 - October 14, 2025. Bimectin - October 2024, October 14, 2025

All bred heifers have been confirmed Safe to breeding dates by our vets at Barrnorth Veterinary Clinic.

A.I to Wheatland Monument 28H April 6th (Favourable). Exposed to TSF Jacob 16J April 13 - May 24.

Homo Polled. Homo Black.

Uniform, Fancy, Correctly structured and puppy dog quiet -

A natural calf off our donor female TSF Emma 29E and our main herd bull Kruz who is building quite the reppart for himself. The Emma cow family is one we hold in extremely high regard around here. We feel that LENG Matron 83M has a lot to offer, with an exciting future ahead of her. She is already dropping a lovely udder and is hard not to love with her clean build and in your pocket personality. Her maternal sister was the high selling black open heifer at this sale in 2023, her paternal sister was the lead off high selling open heifer at this sale in 2024, and her paternal brother was lead off high selling Black bull at Northern Connection this past spring. Matron's pedigree is interesting to dive into, going back to the Pashmenia, Linette, and the Deva families as well as the highly respected Connected bull. Her breeding to the \$80,000

Wheatland Monument should make for a great calf. A heifer we truly believe is destined for greatness, have a look here you won't be disappointed.

During preg checking the vet felt she was safe to A.I but it was too close to tell, we never saw her come into heat during her exposure, and are guite certain she stuck to her A.I . We will pay for sire verification on this calf

Want performance, style, structural soundness, a perfect udder, perfect feet, and a second to none attitude?

Take a look at this powerful Kruz daughter, with a splash of his trademark chrome. She carries herself very well, with a feminine build that doesn't lack a thick rear end and a big barrelled middle, she is one strong female that will have a good presence sale day. Her Dam Kin Kin Peggy Sue 49H is ranked very high in our herd, for her easy fleshing ability, udder structure and her ability to crank out productive offspring. Mary-Kates maternal brother was

our high seller at our inaugural bull sale in 2023 to Massinon Farms, and her paternal brother lead off our 2025 bull sale and was also our high seller to Massinon Farms. As these Kruz offspring mature they are shaping up to be our kind of cattle; broody, big middled, strong females with ideal dispositions.

A.I to Wheatland Monument 28H April 7th Ultrasounded safe to A.I. Exposed to TSF Jacob 16J April 13 - May 24.

KIN KIN PEGGY SUE 49H Dam of Lot 14

TSF KRUZ 102J Sire of Lots 13, 14 and 15

WHEATLAND MONUMENT 28H Service Sire of Lots 13 and 14

Homo Polled. Homo Black.

The name Majesty was a perfect choice for this female. She is royalty by design, with her perfect blaze, and thick stout build. She will easily be a front pasture cow, that will hopefully make someone very happy in the future! She is good footed, good uddered, good mannered, good haired and good lookin'. Her Blackhawk dam TSF Hayley 112H marks them with a low to the ground meat machine build. A perfect example of that is her 2025 bull calf who is one you can't quit looking at. Her breeding to Moto Moto is going to be an exciting one and I'm willing to bet the calf will have a GREAT blaze. She was hands down the easiest heifer of the group to halter break and was leadable after 3 times on the halter. Majesty is hard for us to part with but we believe in "holding nothing back" and are committed to bringing our best to town.

Exposed to TSF Jacob 16J from March 26 - April 26. Exposed to LENG Moto Moto 75M from April 27 - May 24. Observed bred May 6 (safe).

Miss Beast is her mothers first calf and by the looks of her second calf she isn't planning on missing a single beat. We have to admire when a first calver produces like this right out of the gate. Her sire has put every daughter born here back into the herd with their unparalleled calving ease, fantastic udders, great feet and curve bending ADG. Our Jacob daughters have quickly become some of the best cattle on our property, we figured its only fair that we start sharing them! Her name: "Miss Beast" is an Homage to her Grandsire BEE Beast 241H who topped the purebred pen at Beechinors Bull sale in 2021, Beast has been incredibly influential on the Skyline Simmentals herd with plenty of offspring also walking the pastures at Beechinor Bros. Miss Beast is a beautiful, feminine, smooth made, long bodied female, who is dropping a beautiful udder. Her mother walked this ring at Red and Black so its only fair that she follows her foot steps.

With our return to Red and Black, I really wanted to promote our red program so I dug deep and I am going to offer you something extremely special. Not only is 478M a very complete female and has that broody look we all love. 478M's dam, BEE 62X, is a female who I flushed this spring. The only reason I am willing to let this female sell is due to that fact. Her ability to raise top end calves year after year is uncanny. We have bred her 10 different ways and every time she brings home the top of the pen. We have only offered two other daughters. The first, made her way down to lowa and is working for Albert Putz. The second was our high selling red bred in 2023 selling to Ag Land Farms. We currently have three daughters working for us and ironically they also bring in top end calves. If you are in the business of raising red purebred Simmental cattle, please be sure to look at this female. To make the pot even sweeter she is carrying a pregnancy to the curve bending Red Wolf.

A hairy, long spined, deep sided Circle G Heat Wave daughter who has been a stand out since day one. It is hard to see her go but I have a full sister that just weaned off at 820lbs!!! I guess I can say it wasn't a fluke..... 33J, 449M's dam, is a beautiful dark red cow with a perfect udder! These will be our first Heat Wave daughters to calve and from what I have heard they are making tremendous cows! To say we are excited about Heat Waves impact on our herd is an understatement! On a side note.... 33J has a Red Wolf son working at MCG Simmentals...... 449M..... is carrying a Red Wolf pregnancy...... wink wink.

You want them dark red...... this is as dark as I can make them!! Hairy, soft sided and structurally correct makes 451M easy to like. Her dam, 338F, was one of our top picks at the Skors Dispersal Sale and she hasn't let us down. With two daughters working in the herd we thought we could let this one come to town. 451M's sire is our high selling bull in 2021 going to Skyline Simmentals. We were fortunate enough to secure some semen on him. Needless to say, we have had a couple sets of daughters calve and they are outstanding cows!! If you liked the Skors program here is one that is packed top and bottom.

SKORS MAGGIE 338F - Dam of Lot 19

Hetero Polled. Dilutor Free

Another very good Beast daughter! If you like capacity in your cattle, this one has it! If you like strong cow families, this girl is one that needs strong consideration. I say this as The Nydam cow family has been one of the most productive cow families in our entire herd! I could go on and on about the impact Nydam, 404M's grand dam, has had on our farm and in our replacement pens over the last several years! 538C, 404M's dam, is a cow that has the same capacity and always brought a great calf in year after year. Now add Beast and his maternal power to the mix!! I will be excited to see what this female does down the road!! Oh, I should mention she is bred to Red Wolf! Talk about a good chance on getting this heifer paid for on the first calf!

Homo Polled, Homo Black,

Like I said a bit earlier, with our return to Red and Black I wanted to bring something special. 490M is just that, long, deep, feminine, and among the best we can offer. As I admire this female all I can think to myself is why! Why are you selling her?! This females pedigree is packed with cow power. ETZ 241Z, ETZ 226A, BEE 477B, KOP 67U, KOP 6P, all cows that have put high end bulls into the industry! The names of these bulls might ring a bell, Beast, High Roller, O'Keefe, Commotion, Crosby! Speaking of bulls, 14H, 490M's dam, raised a 1000lbs bull calf this year! So, believe me when I say this young female has bull maker written all over her! The calf in this bred female has the potential to be special regardless if it comes out male or female!

Al'ed Mar 23, 2025 to Perks Red Wolf 44G Reg# 1285705 Exposed to Breezy Ridge Leroy 9L Reg# 1419094 from Apr 10, 2025 to May 22, 2025 Ultrasounded safe to Al on May 22, 2025. Approximate due

date: Jan. 2, 2026

Homo Polled. Hetero Black.

Here is a heifer that is easy to like! Soft made, easy doing, extra barrel and broody! This shouldn't be a surprise as 447M dam, 48H, would be explained with the exact same words. This fall 48H brought in a full sister to 447M who pushed the scale down to 923lbs!! Nice when a cross can be so strong! With the backing of Beast on the top side of the pedigree, we believe there are unlimited possibilities for this young female. If she turns out like the other Beast daughters these possibilities will also be impressive.

This bred heifer has been on the radar since the beginning. To date we are seeing the Alpha progeny being born with low gestations and small birthweights. The most exciting part of this is the fact they still have outstanding growth. Yes a true curve bender!!! 401M was no exception as she started at 81lbs and walked across the scale at 923lbs last fall! Oh should I mention off a first calf heifer. We calved our first Alpha daughters last winter and we are extremely happy with the way they produced. Here is your chance to get in on something special!! Oh if you like EPDs check out this girl's numbers.... I think you will like them!

Al'ed Mar 23, 2025 to Circle G Heat Wave 10H Reg# 1337259 Exposed to Moes Go Getter 46K – Reg# 1417356 from Apr 10, 2025 to May 22, 2025

BEE ALPHA 915J - Sire of Lot 23

Homo Polled. Hetero Black.

I still can't believe this heifer is coming to town. There is something about her that I have always liked and even as I write this comment, I am jealous that I won't be the one to see her calve and develop into a cow... I don't know if it's the perfect blaze, the exceptional length of spine, her depth or just a combo of how she puts it all together! Although 436M's dam, 270K, was a first calf heifer we had high expectations with her being a 224B crossed with Connected. Both 224B and Connected have a history of producing outstanding females and 270K is just that! Now add Red Wolf to the equation, the direction one could go are endless! Wait she is bred to Slider...... I had better move onto the next comment before I change my mind about bringing 436M to town!

Exposed to Breezy Ridge Leroy 9L Reg# 1419094 from Apr 10, 2025 to May 22, 2025 Ultrasounded safe to AI on May 22, 2025. Approximate due

Another heifer I have enjoyed watching develop and definitely sad to see her go! But someone is going to end up with an outstanding female! 400M is not only the daughter to one of the most eye appealing cows we own, 197F, but she is a daughter to the great Captain Blaze 5C! To put it all together, Captain Blaze is the sire to Red Wolf, Red Wolf is the sire to Alpha!! I think I found the culprit of the low birth weight and great growth! What is exciting here is that 197F, 400M's dam, is showing us that she is the same! All her calves have been born small and do a great job of pushing down the scales. I will let you in on a little secret..... 197F will be entering the donor pen this spring...... Oh I almost forgot, 400M and 197F were one of the pairs we took down to Clearwater Simmentals to display at the World Congress!!!

A moderate red baldie heifer that has loads of style and capacity. Loyalty, 419M's sire, has done a great job of adding depth of rib and that easy fleshing ability we all love. On the bottom side you will see the great 017C cow who did an outstanding job for us over the years. If you like that easy fleshing idea, you will also like the fact there is some Missile in this pedigree! 91H, 419M's dam, is a bigger framed cow with plenty of middle and a very good udder. She brought a good bull calf in this fall and is a member of the big boys club her at our place. Put a little twist on her breeding..... why not.... bred to the cow maker Rendezvous Lombardi!!

TSF FLYER 13F Sire of Lot 28

KIN KIN FREEDOM 204K Service Sire of Lot 28

CWF MOLSON 34M Kin Kin Freedom Son 2025 High Seller

"Meredith" has really stood out over the past year in our heifer pen. With her friendly disposition, and great build, she was hard not to notice. She is a very feminine, deep, hairy, blaze-faced addition to any program. We have a few TSF FLYER 13F daughters in our commercial herd, as well as our papered simmentals, and they have proven to have a lot of calving ease and growth! We will be eagerly awaiting updates regarding the calf inside of her. KIN KIN FREEDOM 204K provided us with our 2025 high-seller at Transcon's Northern Connection Bull sale, and the calf would be a heifer-bull prospect.

Exposed to KIN KIN FREEDOM 204K from April 2 - June 10. Vet confirmed caught in first cycle.

Viamond B Simmentals

Horned Black Purebred.

- A stout made gentle heifer out of our Pillar Bull.
- Her sire is 10 years old with sound feet and a great disposition.
- And he is going back to breeding in the spring.
- Her Dam is 13 years with good feet and disposition.
- Longevity is built in here.

She was Al'd to WFL Absolute 51Y on March 26 for a Jan. 6 calf. Exposed to Anchor D Twisted X on April 30 - June 30. The vet feels she caught to the Al.

This is our first year at the Ultimate Red and Black sale, and we are excited to be able to offer two of our bulls. We started our small purebred herd five years ago. We rely heavily on AI sires to expand our genetic diversity in order to be able to offer both quality and variety in our stock. Staying small and carefully choosing each of the females to enter our program has allowed us to produce some top-quality animals that we

If you are in the Camrose area, reach out. We are always happy to talk cows!

This bull is the complete package! Excellent muscle and performance while maintaining calving ease and low birth weight. He walks out smoothly and has excellent feet. His dam was purchased last December as a bred heifer from Erixon Simmentals. She did not disappoint with her strong maternal qualities and near-perfect udder.

Shamrock has a quiet, calm demeanor, making him a family favorite. Look for him to add pounds and style to your calves. If EPDs are important, definitely take a look at his! Heifer safe and performancepacked, Shamrock will be a great fit for any program.

Welcome to another edition of the Fleckveih Equation/Ultimate Red and Black/White Gold female sale. I'm excited to bring another great group of females this year that believe to be some of my best yet. Each year gets tougher bringing the best of the best I have to offer. All of these girls have the maternal traits to add productivity to any breeding stock. I'm thankful to be apart of such an amazing sale that steps it up each year! There are a lot of great consigners bringing their very best females to offer all you cattlemen! I'm excited to see old friends and can't wait to make new ones come sale day! If you have any questions don't hesitate to call or text me for more info or if you would like to come see the girls ahead of time! Can't wait to see you all there!

A deep-bodied, soft-made purebred female with a pedigree that brings something a little different to the table. Her dam is one of my first purebred cows, a female who's never missed and continues to produce high-quality calves that perform and last. Sired by JNR Kalon, she ties together the best of fullblood genetics with the consistency and refinement of a strong purebred base. Built for longevity and functionality, this is a heifer that reflects the kind of maternal quality I value most. Balanced, correct, and bred right a dependable addition to any herd.

Here is a real cool, eye catching female that is built right. She comes out of a first calf heifer that put everything on the table. Udder and foot quality runs deep in this cow family and 81N shows she will follow. This heifer has really started to develop in the last month, she weaned off a touch on the smaller side, but I knew she would preform and keep up with her pen mates. Picture taken Oct 2, 2025. (Polled test pending)

Just an all-around tank of a heifer, she is wide, deep, and very stylish. We have been using LFE Stratton for an AI sire for a few years now and can't get over how much performance and consistency he puts into his offspring. Stamped with a nice white face, this heifer has a lot going for her. Her dam is a young cow that proves her keep year after year, walking on true feet, and has a clean udder under her. 85N is one I take pride in and will turn lots of heads on sale day. Picture taken Oct 2, 2025. (Polled test pending)

What a way to return to the sale ring after stepping back for 6 years with this special bred heifer. She is right off the top of our bred heifer pen. Deep, thick with a sweet front end & attractive small head. Is dropping a very nice udder with good teat separation. Gentle heifer to be around and handle. Dam has a great udder and is deep bodied and great feet. Sired by our walking herd bull Ultra Breaking trail who sold at Ultra Livestock bull sale for \$18,000 in 2023. A WJS Trailblazer son off one of Ultra Livestock's / Hay valley's top donor HVAL 723E who has produced very well and back by a great cow TC 43C who also is producing great. BMD 412M goes back to the great TNT Miss Sadie M68 cow. This bred is backed by a proven pedigree with cow power.

Al 'ed to the new homo polled homo Black heifer bull KKH Hay City on April 26,2025 preg checked safe. Exciting new genetics.

She's been a favourite all summer. A jet-black heifer with a snip of white on her face. A well muscled, clean fronted feminine heifer with great hair. Great udders and nice teats run deep in this cow family. Sired by a new sire OMF Journeyman, how has clicked very well in my cow herd. Have another heifer and few bulls that look very good. BMD 114N is backed by a beautiful black blaze faced cow that goes back to JF Milestone who is a female maker. An exciting heifer who has the look and different twist on pedigree.

OMF JOURNEYMAN J24 Sire of Lot 45

Box 63 Jenner, AB T0J 1W0 Cell: 403.501.3669

Email: liboironkt@gmail.com

Homo Polled. Hetero Black.

40M is elegant in her design but still bold in her rib shape, deep sided with tremendous foot quality. We are excited about the udder she is setting up and the potential she will have in production. When deciding on sale females this year we made the decision to sell the ones that really hurt to part with, ones that represent our breeding philosophy and goals and that could make an impact on other herds. 137K has done a tremendous job for us siring a highly sought after group of bulls for the sale, to a potent replacement pen. The bottom side of the pedigree with Deputy and Morgan truly strengthens the possibilities of the production capabilities of 40M.

Bred Al March 26 – KKH Hay City 844M - safe (exposed April 10-May31 to Lazy MC Watchout 414L)

Agreat way to start our offering for 2025. 2504N exemplifies power in every way. Her big hip, tremendous foot quality on great bone, her scale and extension from end to end this is one we are very excited about. 2504N is backed by a great young Yuma female that is 3 for 3 on quality progeny and is just getting started. Her sire was a popular selection from the 2024 bull sale to Meunier Livestock and we were fortunate to be able to sample him in our program. Add in the depth of pedigree on the top and bottom side of this female here is one that offers tons of possibilities for the

Welcome back to another fantastic addition of Ultimate Red and Black! I want to extend a huge thank you to our 2024 buyers and to the team at Transcon for all the great work they do!

We have dug deeper into our replacement pen than we ever have before to build this offering. The breds as always, are bred as if I am going to keep them for myself. So the crosses are extremely exciting! The open heifers we have on offer this year are a must see. The group is solid all the way across and there's something for everyone! The heifer calves are halter broke and quiet, making them perfect for handling, or if you are looking for a female to add to the show string they have a fantastic head start! This is a hard group of females to part with, but I am confident that they will go out and be productive cows you'll be proud to own.

All of the females have had an ultrasound and either pregnancy checked or palpated.

If you have any questions, or would like to see the heifers prior to the sale, please don't hesitate to reach out!

Check us out on Facebook for more updates on the heifers! Amanda and Travis

This is a fantastic female. Mojito is the type of heifer that you can't stop looking at. She's extremely fancy made, and moves out very well. Shes long spined with great extension through her front end. She carries a big barrel, tying into her hind third that carries a ton of muscle. This heifer is attractive from all angles. Her dam has made her mark on the herd being a high production female. Ms Depty weaned off a ripper of a bull calf at 960lbs this fall. Her sire Beast, needs no introduction. He marks his females with a fancy face a fantastic udder structure. Mojito is a very easy keeping, naturally chunky heifer. She has a very laid back and docile temperament, she doesn't get excited about much. If you're looking for a female to put bulls in the sale pen and females in the herd, take a serious look here. She's bred to the exciting Circle G Heat Wave for an early January calf, this combination should have a fantastic outcome.

Ai'ed March 22, 2025 to Circle G Heat Wave 10H Exposed to BEE 426K from April 1-May 22, 2025. Vet confirmed pregnant to Al

CIRCLE G HEAT WAVE 10G Service Sire of Lots 50 and 51

BEE BEAST 241H - Sire of Lot 51

SLS LILO 68L - Full Sister to Lot 51

Moonlight is a standout female and she knows it. She carries herself with a proudness that you just know she will be a future herd matron. This heifer is attractive in her makeup with a long smooth build, deep middle and a wide top. Shes sure to check all of your boxes. You may remember her full sister selling in 2024 to the great program at Oh-Kay farms. I might just like the red version better. She's carrying a service to Circle G Heat Wave, if you like stunning dark red calves, this heifer is an easy decision. She has a big solid foot underneath her and is dropping a beautifully structured udder. If you like heifers that catch your eye every time you go in the pen, Moonlight should be on your list

This heifer is built for success. She's long spined, big middled and has a fantastic amount of muscle. She's been a knockout once the day she was born. She carries herself well and has a nice big foot underneath her. Her sire Big Energy, needs no introduction. He was the 2023 Canadian show bull of the year! If you like proven genetics, just take a peak at Novembers. She's backed by lots of top end sires. The proof is in the putting. She was the heavyweight at weaning, coming off at a whopping 870lbs August 26. November has a laid back personality, with a beautiful pear shape. She is a big very solid made female. I have no doubt this heifer will turn into a cow that will raise keepers, year after year.

MADER BIG ENERGY 97J Sire of Lot 52

BLL SUSI 129J - Dam of Lot 53

SLS LAVENDER 64L - Maternal Sister to Lot 53

If you like females that have a big middle, are extremely sound in their makeup, and produce calves that you'll be proud of, take a look a Nurture. She's the type of heifer I wish I could replicate. She's built like a tank, just like her dam who is a beautiful cow. Susi is long in her makeup with a wide, thick build no matter what time of year it is. Her udder is picture perfect and she knows how to raise a big calf. Nurture weaned off August 26 at 826lbs! I really feel that Nurture will follow in her mother's footsteps and be a fantastic and productive female that you will be proud to have in the yard.

ww YW MILK 132.5

This heifer is a true beauty. She's got it all going on. Great hair, dark foot, big barrel, wide top, long spine, smooth made and as soggy as they come. She is the type of heifer that should be in a show ring. Her personality is fantastic to top it off! Her sire, Red Prince is a true masterpiece. Big foot, correct in his makeup, absurd amount of muscle, and his calves just GROW. This heifer weaned off August 26 at 858lbs... pretty impressive! If that isn't enough, the bull calves off Red Prince averaged just shy of 950lbs. This is a heifer with a very bright future ahead of her, wherever she ends up. Nectar is a very versatile female and could really go in any direction. You have to be brave to look at this heifer in person, her personality will lure you in and then it's game over. She is puppy dog quiet, and loves people. She aims to make sure you leave with checkmarks in your catalog. This heifer is a big time female, be sure to take a look at this one.

BEE RED PRINCE 421K Sire of Lots 54 - 56

Neptune is a heifer that catches your eye, and holds your attention. If you like curvy, thick, flashy heifers you need to take a look here. Her bald face makes her stick out in any pen, and her attractive build will make you want more. If that's not enough, her personality is sure to win you over. She is such a sweetheart, and loves the attention. If you look in her pedigree you'll see she's got some fullblood in the background, which is where she gets her natural thickness from. Her dam is 10 years old and has a fantastic set of feet and a great udder! This heifer is sure to impress for years to come!

You might notice a familiar name in Necessity's pedigree, BEE Georgia 39H. Georgia has raised us outstanding female, after outstanding female. Take a look at her half sister, SLS 82M earlier in the catalog. Necessity is built solid and sound, with a long spine, big hip and great dark feet. She's fancy in her makeup and is the type of heifer that will maintain her condition well, as her dam is well known as "Hippo" around the farm.. I'm sure you can guess why. Both Necessity and her dam are built very wide across the top, with a huge amount of capacity in the middle. She's got a fantastic demeanour, and is very easy to handle. She might not be as fancy as her half sisters, but she is going to produce like crazy. This is a heifer with a ton of potential

Keato Meadow Simmentals

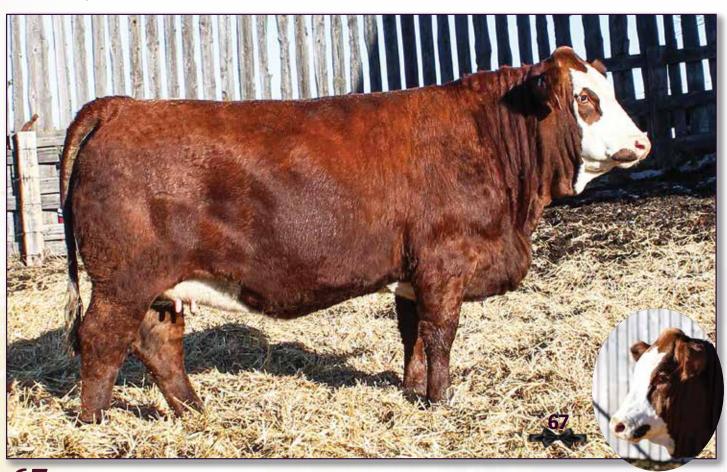

Keato Meadow Simmental Family would like to say a huge thank you to our past buyers & bidders. We look forward to this sale every year, and invite you to come and appraise the genetic breeding potential this sale offers with many different breeders under one roof. This year we have decided to disperse our entire bred heifer group, which is both difficult and exciting. With cattle prices soaring at an all time high and our bred heifer group being the strongest and most complete, we felt this would be a good year to showcase our program as a whole. In this bred heifer group, you'll see a good blend of performance and production longevity through cow families. BROOK 8B I have to mention for her influence in our herd as well as several other herds, she is the Dam to our lead off heifer Memphis 22M. We also have 5 Quantum daughters that I believe are right on and have developed nicely for the cattle breeder industry today. The Sanchez daughters bring a little different genetic combinations, with longevity backing them through their cow families. Rounding out the lineup is a Yuma, Jax, High Definition, Hansolo and 2 Sozo's that represent some of our mainstay cow families. All heifers have been preg checked and should be safe to the observation dates for each heifer, also, they are fully vaccinated and Ivomec in November, no scourguard.

Join us sale day, I would love to chat with you about these future herd matrons. Jonathan & Ebony

Jonathan, Ebony and Noah Kittlitz 55231 RR 205, Fort Saskatchewan, AB T8L 4B7 Cell: 780.920.7589

ANCHOR D MOTOWN 865E - Sire of Lot 67

POLLED 100% FLECKVIEH

- A feature female combining the genetic advantage to be a Lead Herd Matron
- DAM, BROOK 8B, has been successfully productive raising Sons & Daughters that have gone on to leave their mark, her influence in other breeding programs.
 - **DIRECTORS CUT 21D SWANTEWITT SIMMENTALS**
 - ELOQUENCE 18E FORDEN FAIRVIEW who has made the 2025 Top 50 Females List
 - **HURBACUS 060H LAKEVIEW SIMMENTALS**
 - KAMRYN 10K BEECHINOR LAND & LIVESTOCK
 - THANOS 17F DICK & ROSE WYMENGA
- And a couple daughters in our own Herd
 - BROOK 8B is now in donor program and after a successful flush to MOTOWN we had her Al'd the same way and MEMPHIS is the result
- Her Sire, ANCHOR D MOTOWN 865E needs no introduction with PRECIOUS THING 402T as his Dam, I thought it would be a tremendous mating to put her and BROOK 8B together. With MOTOWN heavily line bred, and 8B mating makes for a different genetic combination
- Big Growth curve with 805lbs weaning weight
- MEMPHIS is Polled, powerful and Dark, with productive lineage backing her
- Bred to VIRGINIA RADISON 5Z should make for an exciting calf.

Al'd to VIRGINIA RADISON 5Z (Reg 773557) April 15th 2025 Exposed to ZESTY HART 31LL (Reg 1424324) April 17th - May 28 2025

POLLED 100% FLECKVIEH

- You have to appreciate the shear power, mass, size MELODY exhibits, with a very fluid movement when she walks, and dimensional in her makeup
- DAM CELESTE, has raised a calf every year (8Calves) We value her larger frame and her ability to pass along her type and style
- SIRE HIGH DEFINITION 22H is a powerful CLASSIFIED son out of an LS LEGACY cow. His sons were well received at the past Red Deer Bull Sale, for their size, hair and type
- Big 818lbs weaning weight, really good growth out of a great milking WILLIE 426Y daughter
- MELODY has a real nicely shaped polled head, and looks to be dropping down a good udder and teats. Zesty Hart was lame for a week so we exposed her to Hansolo as well just so she would be bred on time. Her breeding is to either ZESTY HART or HANSOLO. We will pay for a DNA test if needed.

Exposed to ZESTY HART 31L (Reg 1424324) from March 22 - April 26th 2025 Exposed to HANSOLO 56H (Reg 1363638) from April 26th - May 24th 2025 Observed bred April 26th to HANSOLO 56H

- ROSALINA, is a favorite of mine, she is very stylish with a really nice feminine look to her, great head shape as well.
- Maternal sister sold to CIRCLE 7 in the sale last year
- DAM, a good second calf SOZO 4750F female, she is moderate framed, deep bodied with a tight udder and small teats
- SIRE, SANCHEZ 073J is a bull we raised from embryos purchased from Andy Oslandski. He passes on his dark red color and smaller head, which allows for easier calving.
- Good EPDs, back to the Rose Cow Family
- Bred to ZESTY HART, expect calf born with ease, outcross breeding as well

Exposed to ZESTY HART 31L (Reg 1424324) from March 22 - May 28th 2025 Observed bred Apil 18th 2025

100% FLECKVIEH

- MYSTERY has long stretchy frame with plenty growth
- Dam HAVEN 100H was purchased from WOLFE FARMS as a high seller there. She is backed by a top producing cow family of theirs, WOLFE MISS 669X
- HAVEN has lots of growth & performance and a nice udder for baby calves
- Sire SANCHEZ 073J, is backed by one of the two powerful MASSIE cows (OSF MISS MASSIE 253P) that Andy Oslandski owned, raised & flushed.
- Check out the pedigree here, a little different than most! But tried tested and proven cow families throughout.
- Al'd to VIRGINIA RADISON, MYSTERY should calve easy and make a dark-haired calf without loosing growth

Al'd to VIRGINIA RADISON 5Z (Reg 773557) April 26th 2025 Exposed to ZESTY HART 31L (Reg 1424324) from April 27th – May 28th 2025

POLLED FULL FLECKVIEH

- MS MERRIAM is out of BLL MASTER PLAN 835F daughter we purchased at this sale as a bred heifer from RICHLAN FARMS as their high seller
- Tons of super thick dark red hair
- Appears to be setting down a really nice udder
- Dam, PILLAR 39K has sound feet, legs and udder with a nice eye fetching look. We purchased her with a breeding plan in mind
- Really nice maternal pedigree here
- Sire RAC JAX is a DIRECTORS CUT 26D son, DIRECTORS CUT was a high seller that SWANTEWITT used for many years.
- We have a polled super dark heavy haired maternal sister out of ZESTY HART in the replacement pen
- Al'd to VIRGINIA RADISON should add exciting anticipation to calving out MERRIAM

Al'd to VIRGINIA RADISON 5Z (Reg 773557) April 6th 2025 Exposed to ZESTY HART 31L (Reg 1424324) from April 8th – May 28th 2025

100% FLECKVIEH

- MARJORIE, a thick bodied heifer
- Long dark hair and good feet
- Very nice pedigree on all four quarters
- Dam, DOTTIE, a young cow purchased as bred from APPLECROSS, she is the Dam of ZESTY HART 31L (Service Sire to a lot of the breds selling here)
- DOTTIE is long bodied cow, with a large well attached udder, small teats, sound feet and liver dark red hair, with a nice polled head
- Sire YUMA, a well muscled bull, he walks on big feet, solid dark red hair coat, raised by Stanley Martins in Iowa

Al'd to VIRGINIA RADISON 5Z (Reg 773557) April 14th 2025 Exposed to HANSOLO 56H (Reg 1363638) from April 16th - May 24th 2025 Observed bred April 25th 2025

POLLED 100% FLECKVIEH

- MAGDALENA has caught our eye right from a young calf, stylish with lots of cherry red hair and very feminine.
- 80lbs BW and good WW of 698lbs
- Dam 11B has raised a calf every year except one. In the past I have not registered my cull calves (Steers) We have 2 daughters working here.
- She has a very noticeable look, easy to pick out of the herd, great feet and udder as well as quiet
- Sire QUANTUM has left his stamp here with is skull shape and pigment on the head, this mating has worked out really well and would have to say QUANTUM has been 11B's best mating yet!
- HANSOLO calf should come easy and add hair

Exposed to HANSOLO 56H (Reg 1363638) from March 22 - May 24th 2025 Observed bred April 15th 2025

HOMOZYGOUS POLLED 100% FLECKVIEH

- MABEL is a heifer I had intended on keeping back to continue building on the PHYLLIS cow family
- MABEL has developed nicely and I expect her to have lots of milk
- Dam, PHYLLIS 5A, has calved every year, never missing, she has had higher birth weight bull calves, which most we decided to steer
- MABEL is PHYLLIS's 1st daughter
- Genetically put together very nicely
- QUANTUM was purchase from KEETS SIMMENTALS; to be a spare cow bull, he has surprised us with lower birth weights and very eye appealing feminine daughters. A polled ZESTY HART calf should be dark colored and polled

Exposed to ZESTY HART 31L (Reg 1424324) from March 22 - May 28th 2025 Observed bred April 10th 2025

- MIRIAM catches my attention when I scan this pen of heifers, she has that good feminine shape with a nice head and dark red hair
- Nice birthweight 88lbs
- Dam EPIPHANY 30E, a really good WILLIE 426Y daughter, she has a well attached udder, good feet and dark red as they come. Full sister producing for JB LIVESTOCK and LONESTONE
- Good production here, Dam has raised 6 calves with 2 selling to full blood breeders
- Bred HANSOLO should add hair and make a nice stylish Fleckvieh calf

Exposed to HANSOLO 56H (Reg 1363638) from March 22 - May 24th 2025 Observed bred April 10th 2025

POLLED 100% FLECKVIEH

- Another polled QUANTUM female here, MARIGOLD has that QUANTUM color stamp and head shape.
- Genetically MARIGOLD goes back to our BIG HILLS MS STEINADLER 637Y who is still producing here for us today, with an udder that is still like the day she had her first calf
- Dam FRANNIE 15F comes from CATALINA 2C, a full sister to our GAMUT 39E Herd Sire
 - FRANNIE 15F has had a calf every year
 - 2020 HANLIE 20H producing here for us
 - 2021 IVY 24J to WESTGOLD (our High seller as a bred)
 - 2022 STEER
 - 2023 Bull QUINCY 45L to Don Matheson
 - 2024 heifer, full sister to MARIGOLD
- I would expect MARIGOLD to have a nice udder and lots of milk, with a very quiet disposition and great maternal traits and instincts
- Bred to ZESTY HART, she should calve easy, adding the DOTTIE cow family should be exciting

Bendall Cattle

Welcome to 2025 Fleckvieh Equation sale, we are very excited to be part of this sale. If you have any questions before sale day give us a call or stop by the farm. We feel these 3 come from the very top of our heifer pen.

Thank you to our last years buyers Jem Simmental and Skylark Cattle Company.

Mike, Melissa and Hudson

Mike, Melissa & Hudson Bendall

Box 207 Ashmont, AB T0A 0C0 Mike Cell: 780.227.5737 Email: bendallfarms@gmail.com

HETEROZYGOUS POLLED. NON DILUTOR. 100% FLECKVIEH. SIRE VERIFIED.

Monet is a special one coming from the KSL Goldie. Incredible growth on grass and milk with no creep on pasture. Heaviest heifer we have ever weaned. She Is the thickest and deepest polled heifer we have ever produced. Of course coming from the Goldie she has the temperament of a golden retriever, you better be willing to drop everything and give her a scratch in the pen.

Her maternal sister MBM Marigold was the high selling open heifer last year selling to Jem Simmental.

We see a bright future for Monet.

Nova is another one that shouldn't be leaving the farm. Big middle lots of capacity and very long spined just like her dam. A polled power house with a moderate birth weight.

Her sire KSL Cross Country is our calving ease bull that has shown explosive growth in his calves while keeping the birth weights low.

Her dam MBM Kendall is a very deep dark red cow that up and coming in our herd. With KSL Goldie in the blood lines you know it will be good.

No guess work.

We are honoured to have been invited to bring one of our best girls over to join Transcon's Fleckvieh Equation Sale this year! We look forward to meeting our fellow consignors and seeing all of the great animals on offer this year!

Our heifers will have received 2 doses of Scourguard® 4KC, as well as BOVILIS® VISION® 8 SOMNUS w/SPUR® prior to sale date. We would like to extend a thank you to Blue Rock Nutrition for fulfilling our mineral needs and further ensuring the health of our animals.

We encourage you to reach out with any questions, and check out our Facebook page for additional photos!

Horned Fullblood.

"Maizey" stems from my favorite cow family. Her maternal granddam provided us with our highest selling bulls (one yearling; one 2 year-old) at Transcon's Northern Connection Bull Sale back in 2024. This is our first time parting ways with any female stemming from DIAMOND T 137F. We have several daughters and granddaughters in our herd, all have proven to follow suit with her large solid foot, ideal utter and docile disposition. It will be hard to watch her go!

We say it year after year, our fullblood program may not big but its full of quality. 144M is one of the youngest heifers but she sure hasn't let that hold her back. She is big boned, full

of rib shape and will make you a great cow. Her dam is a 9-year-old cow who hasn't missed a beat. She still has a nice udder and good feet. Sired by Oh Kay Kalvin 7K, one of our newer fullblood herd sires we are so excited about. The hind quarter this bull gives to all his calves is remarkable.

Exposed to WFL Mr. Westway 2070K April 18 to June 24. Observed bred April 28. Preg check safe to observed bred date.

A polled Sterling calf. If you're into polled fullblood and cross between horned and polled should work well when you cross them back that way. 65N should make a real nice moderate cow as she matures.

Email: jonny.klein@icloud.com

Welcome to another edition of the fleckveih equation/ultimate red and black/white gold female sale. I'm excited to bring another great group of females this year that believe to be some of my best yet. Each year gets tougher bringing the best of the best I have to offer. All of these girls have the maternal traits to add productivity to any breeding stock. I'm thankful to be apart of such an amazing sale that steps it up each year! There are a lot of great consigners bringing their very best females to offer all you cattlemen! I'm excited to see old friends and can't wait to make new ones come sale day! If you have any questions don't hesitate to call or text me for more info or if you would like to come see the girls ahead of time! Can't wait to see you all there!

A female I've long awaited! Her dam, KSL 34H has proven to be one of my top-producing cows and a cornerstone in my program. Maternal sister to JEMS Pretty Boy 04K, a bull I retained and used heavily in my herd. His progeny debuted in this year's Northern Connection Sale in St. Paul, where he sired my high-selling bull that went to Portiek Simmentals, along with several daughters heading to this years Equation Sale. KSL 34H has truly made her mark, and much of my herd is confidently built around her strength and consistency. This heifer is the first daughter I've had from her, which makes offering her in this sale a difficult but exciting decision. She's packed with hair, beautifully pigmented, and has the kind of maternal quality and power to raise her first calf just like her dam. A tremendous opportunity from a proven cow family.

Exposed from March 10 - June 1 to JNR Quote beginning of January calving.

A beautifully complete female that embodies the kind of balance I strive for! Depth, softness, and natural dimension in an eye-catching package. She's one of the most capacious and feminine heifers in this year's lineup, with the kind of structure and presence that catch your eye from any angle. Her pedigree runs deep in proven maternal power, her granddam being none other than the dam of JEMS 5M! That consistency shows through here in every way. Sired by JEMS Pretty Boy 04K, the same sire responsible for some of my most exciting young cattle! She represents the kind of repeatable quality that defines this cow family. A heifer bred to make an impact for years to come.

Here's a heifer that brings calving ease together with style and substance. A lowbirthweight female that doesn't sacrifice power or presence. Long-bodied, clean-fronted, and naturally feminine, she's got the look of a cow that will develop an ideal udder and be trouble-free for years. A daughter of Pretty Boy, she blends that predictable calving-ease profile with the maternal quality that his offspring are known for. The kind of female that will quietly do her job right raising calves that come easy, grow well, and stay sound. Practical and pretty, she checks all the boxes.

Introducing our little jem, Jackie 77N. We've been excited about her since she was born. Jackie is a Fullblood, 100% Fleckvieh polled heifer. She is deep bodied, feminine, structurally sound, carrying her length of spine gracefully. She possesses the natural thickness and maternal strength the breed is known for. Jackie is double goggled, liver red with an impressive haircoat. Her mamma is heavily pigmented, has a strong udder and has raised a lot of top sellers. Her papa is LFS Pol Chaos 176K, which we purchased from Langer Simmentals. This is his first calf crop and we are impressed about the power of growth he has injected into his offspring, both male and female. He has proven his calving ease as all his calves were born unassisted. Jackie is halter broke with a docile temperament. She will have many friends on sale day with her "easy of the eyes" features. We think she has the potential to produce above average offspring and take an active part in the future in these exciting times within the cattle industry.

SWANTEWITT HEISTY 197H - Dam of Lot 97

HORNED FULL FLECKVIEH.

Here is another fancy heifer sired by LFS Pol Chaos 176K, which we purchased from Langer Simmentals. He has a lot of calving ease in his pedigree including Starwest Pol Blueprint. Her mamma's ancestry includes bloodlines going back to Anchor T Metro 4E who is famous for producing fertile and maternal females. We have used Anchor T Metro in our herd over the years to produce those strong foundation cows with fertility and strong maternal traits. Lady Luck is liver red, double goggled with ample eye appeal. Deep bodied, feminine and full of style, this heifer shows the balance of power and grace the breed is built on. Being halter broke with a stellar disposition, she is a dream to work with. We love these LFS Pol Chaos 176K females and hope you will too. Hard to part with these girls.

HORNED.

Mount Ash Misty is a powerful simmental heifer who combines eye-catching style with proven performance genetics. Her dam, being a lst calf heifer, raised and mothered her calf which thrived from birth. Her sire, Crossroad Landmark 91J is an easy calving bull. Misty is bred to LFS Pol Chaos 176K who sired a great crop of bull calves who will be consigned to the Northern Connection Bull Sale April 2026 in St, Paul. LFS Pol Chaos is very consistent with color, performance, quiet dispositions and overall soundness in feet and legs. We are so pleased with his calves that we have used him for our 2026 calving on both heifers and cows. Misty's haircoat is second to none. She is double goggled, deep sided with a table top back. She is also halter broke for easy handling. Buy with confidence, complete package!

Exposed to PFS Pol Chaos 176K from April 1 to June 30, 2025. Observed bred on April 12, 2025.

Sale Videos Online: @ www.transconlivestock.com

Red Iron Simmentals

Hello and welcome to the Fleckvieh Equation! First off thank you again to our 2024 buyers and for all the support towards our program! We are pleased to return with a couple of our favorite ladies on offer.

Please feel free to reach out with any questions you may have. Hope to see you at the sale!

The Young's

Brock and Brittanie

Vanderhoof, BC
Cell: 250.570.2535

Maddy is a stylish, polled, smooth made double goggled fullblood Simmental heifer backed by a strong, productive cow family. This female combines the power and growth of Brooks Kerosine with the balanced maternal look every breeder appreciates.

She is bred on March 31 to BILJ Pol Jamie 31J for a January 11th calf, this mating brings together performance, and pedigree quality. We are quite pleased with the offspring from Jamie thus far - easy calving , easy fleshing calves. Maddy is the kind to build a herd around—deep-sided, sound-footed, and built to last.

Marita Here, is a paternal sister to 412m also coming from our homo polled herd sire "kerosine". She's a polled, dark dark blood red fullblood. Deep-bodied and smooth made, she offers that ideal blend of style, structure, and maternal strength.

She is bred on March 31 to BILJ Pol Jamie 31J for a January 11th calf, this heifer carries a proven genetic package loaded with cow-making potential.

Sound, balanced, and bred right — a dependable female with longevity and quality bred in.

BROOK'S KEROSINE 14K Sire of Lots 101 and 102

Richlan Farms Fleckvieh Simmentals

We are pleased to welcome both returning and new consignors to the Fleckvieh Equation Female Sale. This year, we're offering three females that we believe exemplify soundness, quality, and readiness to go to work in your program.

Two of the females on offer are sired by our leading herd sire, BLL Master Plan 835F. Unfortunately, he sustained an injury earlier this year and was sent to town this spring. While we are unsure how many females he bred before the incident, opportunities to acquire his daughters will be increasingly limited.

moving forward. One of the females on offer is from our previous sire, HPR New Wave 563H. This will be the very last female sold on the farm as he has moved on to greener pastures.

We invite you to contact us or stop by to view the heifers prior to sale day. If you have any questions or would like an unbiased opinion on our offering, please don't hesitate to reach out to the Transcon Team.

We would like to extend our sincere thanks to Glenn and the entire Transcon Team for their professionalism and attention to detail in managing the sale and catalog production. A heartfelt thank you as well to all those who purchased our females in 2024 — your support is truly appreciated.

All heifers have been Al'd to various proven heifer bulls and were also exposed to our home raised Elevation son, Richlan Elevation 18K (1384968).

HOMOZYGOUS POLLED, NON-DILUTOR, PARENT VERIFIED

This stylish bred heifer stands out with her classic deep red coat and large goggles. She's thick-made, structurally correct, and carries herself with balance and maternal appeal. From the side, you can appreciate her depth of rib, wide top, and strong hip — all signs of a productive future cow. Marla's dam is a large framed cow that is fully pigmented dark cherry red with an abundance of milk. An added value to the pedigree is the Starwest POL Blueprint and Double Bar D Confidence genetics in this female. Sired out of a dependable maternal line and bred to a calving-ease bull, she offers peace of mind for first-time or seasoned producers. Her docile temperament makes her a pleasure to work with on pasture or in the chute. Full sister sold to Back in Black Simmentals of Gunn in the 2024 sale. Whether you're building your herd or adding proven genetics, this female brings both eye appeal and practical value to your program.

Al'd to Crossroad Pilot 21H (1314132) – March 28, 2025. Exposed to KAR Elevation 18K (1384968) April 15 to May 10, 2025.

Preg checked safe for late January.

HOMO POLLED, NON-DILUTOR, PARENT VERIFIED

The last homo polled, Anchor D Disco granddaughter on offer. Hart is a spitting image of her dam, has a deep rib and is hairy. Her dam, JSJ 44H offspring has proven to produce moderate framed females and with udder quality near perfect. JSJ 44H's lineage goes back to a line of thick, fleshy, high producing cows. This female is sure to impress anyone that walks through the pen. Full sister sold to Skylark Cattle Company of Clive in the 2024 sale.

Al'd to Starwest POL Blueprint (800548) March 28, 2025. Exposed to KAR Elevation 18K (1384968) April 15 to May 10, 2025. Preg checked safe for early January.

HETEROZYGOUS POLLED, NON-DILUTOR, PARENT VERIFIED

A deep-sided, broody female that blends power and femininity in an eye-catching package. This heifer displays a strong top line, excellent spring of rib, and the kind of maternal look that defines productive cow families. She moves out on a sound, well-structured set of feet and legs, and shows the fleshing ability and disposition we value in our program. Sired by a BLL Master Plan 835F, she blends the growth and muscle with the calving ease, fertility, and a quiet disposition that makes her a favorite in the pen.

Whether you're looking to expand your herd with proven genetics or build a set of replacement females, this heifer is an investment in quality and consistency. Don't miss the opportunity to add this powerful bred female to your program! Maternal sister sold to Lone Stone Farms in 2023 Fleckvieh Equation sale.

Al'd to Anchor D Outlook (1219254) - April 2, 2025. Exposed to KAR Elevation 18K (1384968) April 15 to May 10, 2025. Preg checked safe for late January.

Wagner's Cattle Co.

Welcome to the 2025 edition of Transcon's Fleckvieh Equation sale. As always, it is a privilege to be back for another year and sell alongside a group of excellent consignors. We decided to change things up this year and offer two bred heifers with hopes to increase the size of our offering in years to come. The heifers are on a full herd health program; vaccinated with Express 5 prior to breeding, Tasvax-8 this fall and both doses of Scour Guard prior to sale day.

We look forward to seeing new and familiar faces on sale day, please don't hesitate to contact us with any questions about our offering.

Mulan is truly a favorite of ours and a great representation of the offspring produced by our previous herdbull, BLL Confidant 31H. Mulan is as picture perfect as they come with her feminine head, dark cherry red hair coat, perfect feet, with great capacity, shape and length of spine. She is setting up a beautiful udder and to top it off she comes in a polled package. Mulan's granddam, Eagle Ridge Hush Hush 51H was the first fullblood we ever purchased and is easily one of our best cows. Wagners Kiss Me Quiet was the calf "Hush" was carrying at the time we purchased her and in her short life is already proving herself to be an excellent producer. We expect Mulan to follow in their footsteps.

Al'd to Rugged R Cavil (1339151) - March 28, 2025. Exposed to Wagners Lithium 105L (1428308) from April 1-June 5. Preg checked safe to Al for early January calving.

Merlot is another outstanding daughter from BLL Confidant 31H that is loaded with muscle and depth coming to you in the same dark cherry red package as her half-sister above. Merlot's dam, Anchor D Jomi is a beautiful "Ulysses" daughter going back to "Windsurfer" and "Razzmatazz" on the dam side that we selected out of the 2022 edition of Pasture Treasures female sale for her exceptional depth of body, shape and superb udder. Merlot is in calf to our home raised hetero-polled, dark red heifer bull, Wagners Lithium 105L. We used him last year with excellent results; his calves were all born easy with no assistance and excellent growth. The breeding of Merlot to Lithium is expected to be an exciting prospect and with any luck will also be polled!

Exposed to Wagners Lithium 105L (1428308) from March 20-June 5. Observed bred April 20, 2025. Preg checked safe to observed breeding date for end of January calving.

Another excellent daughter of the donor cow 170X with the perfect udder her whole life.

Bred to ODO Maverick 33M. Exposed March 15 - May 20. Due Feb 25.

Terms and Conditions

TERMS - The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Transcon reserves the right to charge interest at a rate of 2.5% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. Transcon Livestock Corp and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID - No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES – Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE – Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS – There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED -

The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

ANNOUNCEMENTS – All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

EMBRYO & SEMEN – Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.
