December 20-21, 2025

Transcon's National Trust Online Auction Event!

TIMED SALE HOSTED THROUGH TRANSCON BY TEAM
SALE OPENS SATURDAY, DECEMBER 20 AT 6:00 PM
SALE CLOSSES SUNDAY, DECEMBER 21 6:00 PM

Welcome to the National Trust On Ice – 2025 Edition!

We are excited to present the 2025 edition of the National Trust on Ice Sale, featuring exclusively Simmental and Charolais genetics. Like last year, this year's sale will be a 100% timed online event. Bidding opens at 6:00 PM MST on December 20th, following the "Trio" Sale in Red Deer, and will begin closing 24 hours later at 6:00 PM MST on December 21st.

Last year we took a major step forward with this sale. One of my personal missions has been to restore the National Trust Sale to the level it once held, and I truly believe we've continued to elevate it—growing not only in quantity, but especially in quality. This year's offering includes embryos from leading donors in both the Simmental and Charolais breeds, as well as semen from multiple past high sellers and long-time proven sires.

For the second year in a row, Lot 1 is a true sale feature—the Repka family at JNR Farms really stepped up and made it an easy decision for what would lead off the 2025 National Trust Sale. They are offering the pick of their entire 2026 heifer calf crop, with absolutely no limitations.

From picks, semen rights, and walking rights, to rights to flush, exclusive pregnant recip matings, and a large selection of elite semen and embryos, this year's lineup truly has something for everyone. You'll be sure to find exactly what you need to complement and advance your herd.

Please join us online December 20–21, 2025, and get your Christmas shopping done early!

Merry Christmas from the team at Transcon.

TRANSCON'S NATIONAL TRUST ON ICE SEMEN & EMBRYO SALE **WILL BE HELD AS A TIMED ONLINE EVENT**

1. Create an account at www.transconlivestock.com through the sale login tab. Or if you already have an existing account, login through the sale login link on the Transcon website or your TEAM login.
2. Find the Transcon's National Trust On Ice Semen & Embryo timed auction sale and enter the site by clicking the sales link.
3. You will be able to view all the lots on the timed auction and place your bid on any of them that you choose to. You will also be able to place your max bid if you are unable to participate when the sale closes out. PLEASE NOTE: THE AMOUNT YOU BID IS A PER UNIT BID NOT A PER LOT BID.
For example: if you bid \$25 on 10 straws semen your invoice will be \$25x10 for a total of \$250 plus taxes. If you want to spend no more than \$250 on 10 straws your max bid would be \$25.
4. Online timed auction. Bidding opens @ 6:00 pm MST on Saturday, December 20th. Lots start closing @ 6:00 pm MST on Sunday, December 21st.
5. EXTENDED BIDDING AT CLOSE! BIDDING CLOSING AT 6:00 PM MST ON SUNDAY, DECEMBER 21ST. BIDDING WILL BE EXTENDED ON ALL LOTS FOR AN ADDITIONAL 2 MINUTES WHEN A BID IS RECEIVED WITHIN 2 MINUTES OF CLOSING. BIDDING WILL CONTINUE TO BE EXTENDED UNTIL NO BID IS RECEIVED WITHIN THE 2 MINUTE WINDOW.
6. Enjoy watching the timed sale and don't hesitate to call the Transcon office at 403-638-9377 with any questions.

OLD GENETICS MUST COMPLY TO CSA BYLAWS (AI SIRES TO HAVE 100K SNP PARENTAGE VERIFICATION) IN ORDER TO REGISTER THEIR PROGENY.

Genetics that do not do not comply with the bylaw requirements will be grandfathered, providing:

- These genetics are upgraded to ensure there is SNP lab results on file (using semen);
- All calves/progeny will need to be SNP tested and calf results must be PV to be eligible to register in the CSA herd book.
- If there is a guarantee provided, it will be noted in the footnotes.

Invoices will be sent only to the email address provided. Please advise if not received within 3 days of sale.

1 Pick of the 2026 Heifer Calf Crop From JNR Farms

We would like to thank Transcon for giving us the opportunity to take part in the National Trust Sale! When Cody asked if we would take part with something special his idea of opening our entire 2026 heifer calf crop to the public seemed fitting. This is something we have not done for 10 yrs. With the acquisition of Wolfe's Fleckvieh bred cow herd we felt the time was right to open the herd of approx. 340 **100% Fleckvieh** calves to the industry. This is a rare opportunity in our herd as most who know us will agree. An opportunity to select a future donor with the choice of a horned, polled, or homo polled heifer calf from the top of our herd with no limitations should be extremely exciting.

TERMS

The pick must be selected prior to Sept 1/2026 and after weaning will become the possession of the new owners. We would be more than pleased to help you with the decision as we want it to be a successful and profitable choice for the purchaser.

There's tremendous excitement in the fullblood sector around game-changing polled herdsires, and BLL Voltage 64H continues to fuel that momentum. His first progeny to hit the market have made an immediate impact: at the recent 2025 Western Harvest Sale, a Virginia Ranch daughter commanded \$36,000, while a Skywest female brought \$31,500. Nine daughters averaged over \$21,000, and a powerful young son sold this spring for \$32,000 to Red Willow Ranch. Very impressive results by any standard.

None of this should come as a surprise. Voltage is sired by FGAF Electric Avenue, and his strong-shouldered dam, Starwest Pol Bessie, has already produced BLL Bourbon Street at 100X Ranch as well as a \$35,000 heifer for Century Simmentals. With Voltage's ability to consistently sire stout, growthy sons and elite, eye-appealing females—along with stamping them with his signature deep red color—his influence is clearly here to stay.

Voltage is now in the U.S., and there is no semen currently available in Canada. This is your opportunity to corner the market and generate serious buzz in your program with a proven, highly sought-after herdsire.

3 Walking Rights For Fairview Theory 218H

Consigned by Forden Fairview Farm Ltd

HOMO POLLED. 100% FLECKVIEH. NON-DILUTOR.

Here is your opportunity to own the darkest fleckvieh bull in the breed. Theory has proven to sire dark red cattle with added pigment, hair and muscle. He is backed by a proven pedigree being a full brother to the \$51,500 Evolution and having a full sister being our new donor cow. His dam (Keato PLD Eloquence) was 6th on the list of the top 50 cows in the Simmental breed for 2024 with over 180 registered progeny. Theory sons have topped our bull sale in recent years and his daughters are making excellent young cows. He is versatile in breeding options being safe for heifers while also moderating birth weight on cows. Theory is as powerful in the flesh as he is on paper. He moves well with a big dark foot and is full of muscle. Homo Polled 100% Fleckvieh bulls like this don't come available very often.

TERMS: Selling 100% walking rights with Forden Fairview Farm Ltd retaining his semen rights.

50 units of semen will accompany the bull.

4 Fleckvieh/Angus Pregnant Recip Females

4A) Recip Cow (Canyon) 4B) Recip Cow (New Direction)

Consigned by 100X Ranch

What an opportunity! Pregnant recip carrying Sibelle Pol Amazone 41L embryo pregnancies!! Sired by sires unavailable in Canada and exclusive even in the US. The recip are Fleckvieh/Angus proven females that are in the prime of their lives, that 100X Ranch is rather proud of as well. No other embryos or pregnancies from these two matings will be available in the foreseeable future. These matings are in a class of their own with either TTU Canyon or Freedoms New Direction. Location: 100X Ranch, Velva, ND.

POLLED, DILUTION FREE, 100% FLECKVIEH FULLBLOOD

TTU Canyon serviced the pastures of Virginia Ranch for years as the go to calving ease sire. A small inventory of semen was frozen in the US prior to walking at Virginia Ranch. No semen was collected in Canada, making this a very very rare opportunity! His most notable son, Rugged R Cavill, has solidified his role in the Fleckvieh breed as the calving ease specialist. The potential of this mating, either bull or heifer, is unlimited.

FREEDOMS NEW DIRECTION H507 proudly struts at 100X Ranch. His mass, dimensions, heavy pigmentation, outcross pedigree, and polled, weigh in as a key implement Herdsire. Siring moderate birthweights, strong performance, consistent design, solid patterns; his sons developing for the 2026 100X Bull Sale are sure to be fan favorites. Semen is not available in Canada, thus a unique mating with Sibelle Pol Amazone 41L could be the homerun regardless of sex. Study this pedigree carefully. The value of a polled (possible homo) herdsire or future frontline female is priceless.

ANCHOR D CARTEL 459K

Polled Fullblood · P1399613 · ZDS 459K · JAN 13, 2022

Consigned by Starwest Farms

10 Straws 5A) 5 STRAWS 5B) 5 STRAWS

Canadian & US Qualified. Stored at Alta Genetics.

A true genetic masterpiece, Cartel displayed remarkable length of spine, muscle mass, good bone, and excellent pigmentation. Herd sires that confidently work on every phenotype are few and far between, but his calves consistently have impressive gains, extraordinary mass and sound confirmation. Not to mention they demand your attention and are just downright eye-catching. His first son to sell commanded an impressive \$200,000 and his first daughter to sell brought \$20,000 at the World Simmental Sale; simply proving that his progeny land you money in the bank every time. Sadly, we lost Cartel this summer to an injury and therefore, this will be the only semen to sell until 2027. Don't miss out on the opportunity to utilize one of the best bulls this industry has seen.

Krush has proven to be one of the most versatile polled fleck sires we've ever used. His offspring exhibit ample power, ideal hair coats, and overall structure that is second to none. We've used him on a select number of heifers and he's calved without any issues. We will continue to do so. Not often do you find a power herd bull such as Krush that transmits as much thickness as he does while maintaining respectable birthweights.

20 Straws 7A) 5 STRAWS 7B) 5 STRAWS 7C) 5 STRAWS 7D) 5 STRAWS

Canadian & US Qualified. Stored at Bow Valley Genetics.

Here is your only chance to acquire semen on the \$355 000 Rumble for the upcoming 2026 breeding season. The very first time we got my eyes on Rumble we knew he was something special.

His dark red color combined with his structural correctness makes him very attractive.

Then his big barrel, deep chest, wide top and huge butt makes your mouth drop. The maternal greatness is stacked on both sides of his pedigree. Rumbles dam BEE Couture 663D was in the top 2 of her respective female group and her dam, Rumble's grand dam, Eagle-Ridge Ultra 26U was a cow that never missed. With daughters now into production he has reached all our expectations. Nice tight udders and perfect teat size, good milk and great mothers. The bull calves continue to be in the top of the class for weaning weights and really good disposition.

Cash in and take your program to the next level.

Canadian, US & Aus. Qualified. Stored at Alta Genetics.

JNR barbarian is the \$165,000 high selling herd sire that we and Circle 7 acquired back in February of 2023. He has been commended for his added frame and length, while remaining soft made, big ribbed, and wide based. His first sons sold back this spring and they have blown past the expectations. His first daughters are far into calf as I am writing this and we can't say enough about the amazing young cows they are going to be.

If you're looking to make a big step forward in your program, you might want to take part in this proven bull. 62% of the Synergy son's raised @ Virginia Ranch have gone to breeder programs. In the last two years we have sold 13 Bred Heifers at the Western Harvest sale with an impressive average of \$24,000 each. Synergy now walks the pastures for our good friends to the south of us; Ruby Lane Farm (John Smith) of Texas and Golden Dawn Farm (Stanley Martins) of Iowa. We would like to thank Stanley for coming and taking these two awesome herdsires – Sibelle Pol Synergy 18F & BLL Voltage 64H back to the USA.

Gold Trigger is a complete package : polled, muscle expression, dark red color. He is smooth made and very fluid in his movement and he walks on good foot. He's diluter free and has an excellent temper. We are impressed by the animals he produced. Bulls show lots of muscle expression, good feet and legs, dark color and mostly polled and heifers are deep-bodied and well-balanced. Birth weights are moderate and consistent. All calves have good temper as their sire. In 2024, we sold his sons for an average of \$17964 and her daughters for an average of \$11125. Goldtrigger is a great opportunity to add value to your herd.

It will be the last occasion you can buy semen from Gold Trigger for the 2025 & 2026 breeding season. Don't miss the opportunity!

There continues to be strong interest in Spartacus genetics knowing the exceptional quality he has sired in the past and the tremendous potential he will command in future progeny. Spartacus sons, daughters, embryos and semen in Canada and the USA have brought well over a million dollars. He is a money maker that's for sure! Here at Crossroad Farms we've had great interest every year in the Spartacus influenced sons and daughters sold through our on-farm sale. Spartacus is one of the most versatile bulls we have ever used, he puts thickness into his progeny like none other and I don't know where you would find one like him that has consistently produced such quality. Siring proven progeny in Full fleck, Polled, Reds and Blacks makes him very unique and a real asset to the Simmental breed. Philippe Bellavance from Sibelle Fleck in Quebec is the breeder of Spartacus and he has been doing very well using him on his polled genetics selling Sibelle Pol Synergy for \$65,000 to Virginia Ranch and Rand-Mar and Sibelle Pol Sugar Ray to Beechinor & WJ Simmentals for \$66,000. We are pleased to offer you this opportunity knowing you will be as happy as we are with the results.

Polled. Full Fleckvieh.

Darwin is a smooth polled, 100% Fleckvieh, cherry red, non-dilutor, moderate frame and heavy muscle bull with really good feet. Unfortunately, Darwin died at stud just after the quarantine, so we have around 60 doses left. For that reason, we only sold few doses every year and only few calves are born every year in Canada. His progeny is very well accepted by the industry and he produce some of the high seller across Canada, male and female every year.

Panther is our new and exciting herd sire that we are pleased to work with. He seems to reduce birthweight, add some thickness and give his nice dark red color to his progenies. Not every day you find a fleck bull of this quality with a CE over 14. Watch for his sons who will highlight our annual bull sale next March. We sold one of her first daughters last September as one of the highseller to Snowdame Farms. Panther also sired probably our best heifer to date, FGAF Petra 026L. He is new to the industry and his potential is limitless. Don't miss the opportunity to acquire his genetic to your herd.

Since the moment he hit the ground Top Gun has exceeded every expectation we had for him. He is 100% Fleckvieh, homozygous polled, non dilutor that is proven safe for heifers. Top Gun is not just a heifer bull, but his calves have excelled in both the bull pen as well as producing top quality females that have topped sales in the US. If you study him, you'll find that not only is Top Gun a powerful easy keeper, but he is a very sound and fluid moving bull. You can't go wrong investing in a bull like him!

If you're looking to infuse some power into your polled fleck program this mating fits the bill. Prostock Kim needs no introduction, being one of the very best polled fleck cows in the industry. The Silverlake Jenner calves we've had here at DBD exhibit tremendous growth, depth of body and foot quality. This mating just makes sense. GUARANTEE - ONE PREGNANCY ON 3 EMBRYOS IF IMPLANTED BY CERTIFIED TECHNICIAN.

You can use every technical term there is to describe Roxy but it's plain and simple- she's an absolute tank. Known for his longevity, LFE Warrant remained breeding soundly up until just a couple of years ago. He was a good mover, a consistent breeder, and built to last whose daughters are second to none. Roxy carries a fabulous udder and has proven her worth, with a daughter selling to Lingren for \$35,000 in the 2023 Friday Night Lights sale. Her bull production record is also impressive with 11 sons currently working in commercial herds across the prairies. With Rumble siring these embryos, this should be a homerun as this cow line is a proven and powerful bull-producing family.

Crocus is well known being the dam of Sugar Ray and Synergy. These two bulls have left their mark on the breed with their offspring. Last year, the sale feature of our offering for the Eastern Harvest sale was a direct daughter of Crocus; Sibelle Pol Amazone 41L purchased by 100X Ranch for \$37,000. Double Bar D Malone 39K is one of the high seller in Canada 2 years ago and we are very happy by the first calves crop. The cross with Crocus is very exciting, by being homopolled, you have 50% chance to have a homopolled calved from a new bull and a proven cow.

GUARANTEE - ONE PREGNANCY PER 3 IMPLANTS IF IMPLANTED BY CERTIFIED EMBRYOLOGIST.

This frozen pkg of goodness is truly "The best of both world's " right now in this amazingly strong cattle market we are all enjoying!! With the remarkable Red Angus cow Reba 49W and the unreal female making simmie bull in Cobra.

Reba started her career at the mighty Red Roundup sale in 2009. She has been a stellar cow for both Brylor and Mark Chriss of On The Mark Cattle Co of Oregon. She produced many high selling daughters over her career and several herd bulls in both the USA and Canada. Her most famous daughter is Reba 49D at Brylor which has raised 9 herd bulls for breeders all over this country that averaged 19,200 when they've been sold!!

49W even had her own personal Theme based sale in 2023 called the Red Reba "Fancy Gathering " event featuring all lots in this sale tracing back to her. It was a huge success!

Cobra semen as you know is extremely hard to find and rightly so as testament to the job he has done for the Simmental breed. So, if you are wanting to incorporate some of his precious genetics in your herd

This frozen lot may be your best bet!

EVF LILY 338L as a cow
 Daughter of MISS PRAIRIE COVE 10H
 Full Sibling Mating to Embryos

Miss Prairie Cove 748E

A show ring darling that has transformed into a portent, profit generating donor female. Miss Prairie Cove 748E has clicked no matter how we have mated her. Four of her calves by Apex generated \$100,000.00 in a single year, which included the high selling heifer calf In Canada to KFC Farms. That calf's flush mate was Kickstart who was no stranger to hanging banners himself for Stepler program. The potential of these three matings could be the next great one. The power and material side of Governor will make some outstanding females and the bulls will be power houses. The proof is on the ground with the Keystone calves that GR and EXL have on the ground. The females are flat good, and the bull are at the top of the pen. If you want to add shear power into this great cow. Jehu will do just that in both the bull calves and heifers. The Keystone and Jehu are IVF and the Governor are conventional. They are all stored at Bow Valley.

M6 MS NEW GERMAINE 484 P

CE 18.1 BW -5.3 WW 77 YW 148 M 25 MCE 11.7 MTL 64

58B ranked very high on our list from the Wrangler Dispersal! We knew a little background on the cow family as 51W is one of my favourite SOS cows. When you talk about cow families, I don't think you will find a more fertile/docile one. Both 58B and 51W are knocking it out of the park in the donor pen. There is longevity and soundness for generations, now add one of the most talked about curve bending bulls SVY Historic to the equation. Embryos are stored at Bow Valley Genetics.

Peugeot is a 1994 bull that back in the day was used very heavily around EXL making up majority of the cow herd. Yes, this Semen is older, but we have an abundance of straws in the tank and wanted to share some of the last straws available. He is a total outcross pedigree, adds tremendous depth, width of top and quarter, excellent hair and optimized frame size. His daughters had exceptional udders, rebreed very easily and were very efficient. Not to mention their eye appeal. Older bull but we have used semen in recent years and the sons that come from the matings were extremely marketable and have the commercial men still using the bulls today.

Eveready is a 1994 bull that also made-up majority of the herd here at EXL back in the day right up until the dispersal in 2006. He was a very correct, easy moving bull with tremendous thickness and an incredible disposition. We currently have an older Eveready female that's a 2014 model we purchased from Buffalo lake Charolais as we got back into the purebred business. She is one of the top producers in our herd as her sons have made the sale pen every year and many daughters have been retained. The Eveready lineage is still very marketable today. These are some of the last straws of Eveready in existence that we know of, this will be the last chance to get some of these proven older genetics.

Cedarlea Galveston 7G is a powerfully built sire with great muscle expression and body mass with added scrotal and carcass traits. His top 15% CE and top 10% BW rankings make him a credible calving ease sire followed by top level performance. Galveston is a strong Calving Ease sire who also checks the boxes for performance, backed up by his 107 WW index and 103 YW index along with an impressive 1605 lb actual sale day wt. Homo Polled.

Milestone was the top selling bull in the 2016 Wright Charolais sale at \$125,000 for one-half interest. Milestone is a proven sire that has successfully produced elite show cattle and top performing commercial cattle. He scanned a 21 sq. in. ribeye as a yearling for a 144 ratio, and the muscle shows in his powerful sons and daughters. Homozygous Polled, PAF. Semen is very limited in Canada so with that take this opportunity to get in on the great Milestone Bull.

Thank you to all the bidders and buyers who have supported the National Trust On Ice Sale over the years!

We hope you will all be able to find the genetics to advance each and every one of your own programs. This year's offering is second to none!

Elevation is a bull that has exceeded our expectations which is something to be said as our expectations were very high! Elevation's genetics both top and bottom are packed with outstanding udders, large feet and structural correctness. On top of that you also add his dark red color, depth through his heart and flank and wonderful disposition. We were a bit surprised to find that Elevation reduced birth weight and did an outstanding job of throwing his dark red color. We were also very impressed at weaning time. In 2019 his top five bull calves averaged 905lbs at the end of August with no creep feed, these same 5 bulls averaged 88lbs at birth. His bull calves are impressive but he also hit a home run in the heifer pen producing top end females. His daughters are continuously bringing in some of the heaviest calves the last three years. As a couple of side notes, Elevation is the highest selling Full Fleckvieh bull in Canada for 2018.

HOMOZYGOUS POLLED. NON DILUTOR. 100% FLECKVIEH.

Payday is a young breakthrough sire, being homozygous polled, solid colored cherry red, thick and big-volumed throughout, totally correct on great feet, quiet and gentle, freight-train long - and some of the best balanced EPDs in Fleckvieh cattle. High selling bull from Transcon's 2025 Red Deer Sale.

"Much more than a heifer bull" is the way I described him to Dennis Small when I first saw him last winter. Aptly named "Payday" for the beef genetics we're confident he'll infuse into the breed.

Only semen to sell for 2026 breeding season in Canada.

At 2,800lbs, Sarcee has matured into a powerful and admirable herd sire. Sound and athletic, he travels with ease on his sound structure and big, solid foot. Arguably, he is the best-footed bull we've ever utilized in our program. With each calf crop even more impressive than the last, we continue to use him with confidence. If you are searching for a genetic avenue to add some extra size and dimension, with the added benefit of a maternally stacked pedigree, put a star beside this diamond of a bull.

This bull was the result of natural breeding. He is an opposite sex twin but he didn't miss much from that. Brantley is a true example of good genetics. He is homo polled and a non diluter, calving ease and heifer safe. His dam, Little Creek Alfie, is a heavy cow that has consistently retained her condition even after weaning twins of a combined wean weight of 1,363lbs. We know that Brantley will bring the same consistency and correct confirmation that Brantz has brought to our herd while guaranteeing polled calves to your program. Brantley has been used on Fleckvieh, Fullblood, Purebred and commercial cattle, all with phenomenal results. This is an excellent opportunity to add another calving ease fullblood to your tank! Pictured at 18 months old.

Here's a special opportunity to add what might be a valuable piece to your polled Fleckvieh puzzle! Derived from over 97% proved horned genetics, Captain's polled gene could be a very nice compliment to a wide variety of females in the breed gene pool. From a strong cow family that has already placed herd sires north and south of the border. Captain is dilution free, was good natured from birth, exhibited tremendous fertility at a young age, and manifests the heavy pigmentation bred into both sides of his pedigree. Modern in his design, he's easy to appreciate for his tidier front, his deep middle third, and his expressive rear quarter. A bull bred to user friendly, and a future!

We were fortunate enough to purchase the semen rights on this bull a couple of years ago. I feel he is the best footed bull on the market today.

We bred close to 100 cows last year as well as 2025, wide tops and long bodied calves, every heifer calf will be in our keeper pen: dark red, chrome, good footed and long bodied.

We thought we would offer a larger lot of 40 straws if there was any commercial interest.

Pillar's consistency is becoming more and more evident every year. Every year his EPD's keep going up on growth and calving. His calves have truly impressed us and visitors and buyers that have seen them. He is well muscled with lots of width and depth and as long as they come. The Pillar calves have no trouble putting the pounds on. He comes with a moderate birth weight and a disposition that everyone wants. We have used him on heifers and cows with no problems at all. Whether it is his sons or daughters he has never disappointed us. His pedigree comes with some great bulls, such as SVS Captain Morgan 11Z and Springcreek Liner 56U.

Hexagon was always known for the females he sired. He was raised by Bar 5 and purchased by Mason Faulkner back in 2016 for \$11,000. He'll definitely sire some great calves; breed him to a Homo polled female, or thick hair female and you'll have a great outcrossed calf. Hexagon is a no miss type of bull and for sure ready to make his mark in the breed all over again.

Tillman is that "Zimmer" red blaze faced bull that caught the eye of many 4 years ago. Power packed pedigree that breeds consistently. Tillman adds performance, chrome and strong maternal traits. One of our partners on sale day was Diamond R Stock Farm where Tillman still walks for part of the year. If pounds, dark colour, chrome, performance and maternal traits are on the list for your next AI sire, ZSL Tillman 127H checks all those boxes.

We were fortunate to partner on this unique breeding piece 5 years ago. His daughters and sons are very well accepted in both purebred programs and commercial operations. Connected adds length, natural thickness and that touch of fleck that helps make his progeny the easy doing type with nice udders. The bulls are big footed, and very docile. Connected semen has never been offered in bulk quantities but on occasion has been offered for sale. No big marketing push just proof in the pastures and the profit books for those whom have used him. We have used him in the heifer pen on occasion with success.

When we went down and seen this bull as a yearling we knew we needed a semen pack on him. Stout, clean fronted, heavy hiped and huge nuttet. We don't have many cows to breed here. We have used him on sale breds, flushed him with great success and have AI bred a few females as well. Again the reports from our customers say that the heifers all calved without issue and the dark colour has definitely carried through nicely for us. Crest View Land & Cattle are using CSC Redliner 58L in their program that is an ET son of Century and our previous donor FBL Tara 188D, with a full sister being sold as a feature bred heifer in Simmsational 2025.

CE 5.0 BW 4.4 WW 87.1 YW 127.9 M 25.4 MCE -2.3 MWWT 68.9

Lot 97, 100 & 102: Parview Red Kyra stems from the famous Beeba cow family at Bar 15 Simmentals. Anne told me when I bought the original Beeba cow, that the Beeba line was one of the best to roam their pastures. She produced many great bulls and females for us and Anchor D has a daughter from this mating that Danny often refers as his favorite black cow.

Terms and Conditions

TERMS - The terms of the sale are cash, cheque, e-transfer, or wire and are due upon receipt of invoice. Transcon reserves the right to charge interest at a rate of 2.5% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell to the best advantage either publicly or privately, without further notice. Transcon Livestock Corp and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

SALES TAXES – Applicable sales taxes will be charged on semen, embryos, respective to the home province of the buyer, not the seller.

CATTLE PICTURES AND INFORMATION PROVIDED - The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

EMBRYO & SEMEN – Full settlement must be made before release is done and shipping arrangements should be done within 14 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.

Transcon Livestock Corp nor our sellers can be held responsible for changes made by the Associations to their policies regarding lab work requirements.
