### Status:

#### Normal

If a vehicle does not have a status of rebuilt, salvage, non-repairable, or altered, it is considered to have a normal status. "Normal" is simply a term used for the purposes of vehicle registration.

A normal status does not mean the vehicle has never been damaged or is in good mechanical condition. Vehicle status alone does not fully describe a vehicle's mechanical condition or damage history.

### Vehicle Status:

B.C.-registered vehicles may have a status of normal, rebuilt, salvage, altered, or non-repairable.

**Please note:** Vehicle status alone does not fully describe a vehicle's mechanical condition or damage history.

Vehicle status records are obtained from the B.C. vehicle registry at the date and time of a VIN search. Any changes to a vehicle's status after that date will change the information shown.

The status may not represent the vehicle accurately for a number of reasons, including any of the following:

- A written off vehicle has not been reported to the B.C. vehicle registry.
- A vehicle wrecker or recycler has not reported a vehicle that has been decommissioned.
- A vehicle with major damage was repaired by its owner.
- An insurer denied a claim, or the owner did not follow through with a claim.
