When buying a used vehicle, we always recommend using a CARFAX Canada Vehicle History Report, along with a vehicle inspection and test drive, to make an informed decision.

# **Vehicle History Report + Lien Check (BC)**

No lien records found in British Columbia.

#### How We Check for Liens

CARFAX Canada uses the VIN to search government records in each Canadian province and territory (excluding Northwest Territories) where the vehicle is currently registered and where it has historically been registered. We do not check for liens or title in any U.S. state.

If a VIN has no registration records in Canada, we cannot check for liens. We cannot guarantee lien checks on trailers, recreational vehicles or heavy-duty equipment.

Purchasers should always get written confirmation from vendors that there is no lien on the vehicle.

#### **CARFAX Canada Canadian Lien Guarantee**

If for some reason our lien check fails to accurately reflect the Canadian enforceable lien status of a vehicle at the time of the search, CARFAX Canada will reimburse the party that purchased the report and relied on it to their detriment to a maximum amount

of (1) the value of the car (2) the value of the lien (3) Five Thousand Dollars Canadian (\$5,000.00), whichever is lower.

### **Open Recalls**

Recall #: N140877 | SUPPLEMENTAL RESTRAINT SYSTEM AIR BAG CONTROL MODULE Recall Date: 2015 Jan 27

### **Recall Description**

Toyota is recalling certain model year 2003-2004 Corolla and Corolla Matrix vehicles and 2003-2004 Pontiac Vibe vehicles. The supplemental restraint system (SRS) circuits are susceptible to internal shorting. The electrical short may create an abnormal current flow and increased heat which can damage the circuits. This could result in an inadvertent deployment of the front airbags and/or seat belt pretensioners.

All owners that have not had recall 13030 performed are strongly encouraged to do so and not wait for the final remedy to be deployed for this recall. The replacement ECU parts needed for the final remedy are not expected to be available until the latter part of 2015. Vehicles that had a noise filter installed as the remedy under recall 13030 still need to have the air bag control module replaced under recall 14877 free of charge.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact PONTIAC or visit **GM's website**. (https://my.gm.ca/gm/en/recalls)

#### ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

 $Consumers \ are \ encouraged \ to \ read \ ICBC's \ full \ statement \ of \ limitations \ at \ http://apps.icbc.com/registration/vchr/Limitation.html.$ 

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
