How We Check for Liens

CARFAX Canada uses the VIN to search government records in the Canadian province or territory selected.

We cannot guarantee lien checks on trailers, recreational vehicles or heavy-duty equipment.

Purchasers should always get written confirmation from vendors that there is no lien on the vehicle.

CARFAX Canada Canadian Lien Guarantee

If for some reason our lien check fails to accurately reflect the Canadian enforceable lien status of a vehicle at the time of the search, CARFAX Canada will reimburse the party that purchased the report and relied on it to their detriment to a maximum amount of (1) the value of the car (2) the value of the lien (3) Five Thousand Dollars Canadian (\$5,000.00), whichever is lower.

This vehicle history report is compiled from multiple data sources. It is not always possible for CARFAX Canada ULC or its source data providers to obtain complete information on any one vehicle. For example, there may be other title, brands, registrations, declarations, accident information, service records, recall information, odometer readings or other information where discrepancies that apply to this vehicle are not reflected in this report. CARFAX Canada and its source data providers receive data and information from external sources believed to be reliable, but no responsibility is assumed by CARFAX Canada, its source data providers or its agents for any errors, inaccuracies or omissions. The reports are provided strictly on an as-is where-is basis, and CARFAX Canada and its source data providers further expressly disclaim all warranties, express or implied, including any warranties of timeliness, accuracy, merchantability, merchantable quality or fitness for a particular purpose regarding this report or its contents. Neither CARFAX Canada nor any of its source data providers shall be liable for any losses, expenses or damages in connection with any report or any information contained within a report, including the accuracy thereof or any delay or failure to provide a report or any information. Other information about the vehicle that is the subject matter of this vehicle history report, including problems, may not have been reported to CARFAX Canada. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car. By obtaining, reviewing and/or using this vehicle history report, you agree to be bound by all of the terms and conditions in CARFAX Canada's Conditions of Use and any CARFAX Canada End User Licence Agreements as each may be amended from time to time by CARFAX Canada.

Status:**Normal**

If a vehicle does not have a status of rebuilt, salvage, non-repairable, or altered, it is considered to have a normal status. "Normal" is simply a term used for the purposes of vehicle registration.

A normal status does not mean the vehicle has never been damaged or is in good mechanical condition. Vehicle status alone does not fully describe a vehicle's mechanical condition or damage history.

Vehicle Imported: NO
(from outside B.C.)

ICBC Claim History

07-Apr-2002	THEFT FROM AUTO	NO DETAILS	NO DETAILS	

No Details

No Details may display if ICBC:

- does not have an estimate of the vehicle's damage and
- has not made a payment with respect to the damage (e.g., has not paid for repairs or made a settlement).

For more information, please see the *Statements of Limitation*.

You should consider having the vehicle inspected by a qualified mechanic.

Statements of Limitation

Vehicle Status:

B.C.-registered vehicles may have a status of normal, rebuilt, salvage, altered, or non-repairable.

Please note: Vehicle status alone does not fully describe a vehicle's mechanical condition or damage history.

Vehicle status records are obtained from the B.C. vehicle registry at the date and time of a VIN search. Any changes to a vehicle's status after that date will change the information shown.

The status may not represent the vehicle accurately for a number of reasons, including any of the following:

- A written off vehicle has not been reported to the B.C. vehicle registry.
- A vehicle wrecker or recycler has not reported a vehicle that has been decommissioned.
- A vehicle with major damage was repaired by its owner.
- An insurer denied a claim, or the owner did not follow through with a claim.
- A vehicle was recently written off, but the registry has not been updated yet.
- A vehicle imported to B.C. (either from Canada or the U.S.) had an incorrect status in the jurisdiction it came from.

Vehicle Claims History:

This is a report of vehicle damage, and includes repairs paid by ICBC and outstanding damage estimates at the date and time this report is issued. Any claim payments and adjustments made after that date will change the information shown.

You should not accept this report unless it is obtained directly from ICBC, an Autoplan broker, or a motor dealer registered under the British Columbia Motor Dealer Act. This report is not for resale. No modifications are allowed. Reproductions are permitted only with authorization from ICBC.

Information is from ICBC's files only-damage paid by other insurance companies is not included.

The report may be incomplete or show No Details for a number of reasons, including any of the following:

- The repair amount shown may include tax.
- The vehicle was not insured by ICBC when the damage occurred.
- The owner did not make a claim to ICBC.
- The owner did not arrange for ICBC to estimate their vehicle, or ICBC has not captured a damage estimate for the vehicle.
- ICBC has not yet made payments for the damage.
- The claim may still be under review.
- ICBC denied a claim or there was no coverage for the loss.
- The vehicle:
 - was not registered in B.C. when the damage occurred (e.g., a brand new vehicle or one from out-of-province),
 - was not required to be registered under B.C.'s Motor Vehicle Act or Commercial Transport Act (e.g., an off-highway vehicle, such as a dirt bike),
 - or
 - the vehicle's registration number was not electronically captured.
- Additionally, claims paid under some types of special coverage policies may not be included in this report. (For example, when a single policy covers several vehicles, we may be unable to report the repair costs for an individual vehicle insured under that policy.) Historically, special coverage claims have accounted for less than 5% of the total number of claims reported to ICBC each year.
- For a small number of claims, our systems are unable to retrieve estimate information.

Vehicle Estimate Information

Please note that:

- Vehicle estimates may not reflect the actual cost of repairs. For example; hidden damage may be found when the vehicle is being repaired at the repair facility.
- The vehicle may have a repair estimate; however it is possible that the nature and extent of damage may make the vehicle a total loss and not economically repairable.
- The reports list the primary area of damage for each claim. This is the area on the vehicle that costs the most (or is initially estimated to cost the most) to repair. Other areas of the vehicle may have also been damaged.

The primary area of damage may not necessarily be the area of the vehicle that sustained the greatest forces of impact.

- For a few types of claims (such as glass claims), we are unable to provide the primary area of damage, as our systems are unable to retrieve this information.

ICBC does not make any representations as to whether repairs detract from or add to the vehicle or its value.

Please note: This report contains information from ICBC's files and is generally believed to be correct. However, due to various limitations, we cannot guarantee its accuracy. If it is incomplete or inaccurate, ICBC will not be held liable for more than the cost of the report.

We encourage you to have the vehicle inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
