<p>ENGINE Long Block (Includes: Oil Pump)</p> <p>This engine has undergone a comprehensive remanufacturing process, ensuring it meets the highest standards of performance and reliability. It features a full suite of top-grade components, including a precision-machined camshaft, high-performance valve springs, and durable lifters. The pushrods have been meticulously crafted to ensure optimal operation, while the oil pump is engineered for efficient lubrication.</p> <p>The engine boasts newly installed pistons and piston rings, along with connecting rod bearings and main bearings designed to enhance durability and minimize wear. The cam bearings are of premium quality to support smooth camshaft operation. The timing chain and timing gears have been carefully selected to provide accurate timing and reliable performance.</p> <p>In addition to these components, the engine includes expertly reconditioned cylinder heads, ensuring they meet stringent performance criteria. All necessary gaskets have been replaced to provide a reliable seal and prevent leaks. This engine is designed to deliver exceptional performance and longevity, making it a superior choice for your vehicle.</p> <p>Please note that while most of our units do come with gaskets, it is important to inquire specifically about gasket availability for your particular engine model. Not all seals and gaskets are included with every unit. However, if gaskets are available, we will provide any leftover gaskets from the remanufacturing process at no additional charge.</p> <p>We advise you to check with us if you have any questions regarding gasket inclusion for your engine. Thank you for choosing Fraser Engines, and we look forward to serving your remanufactured engine needs!</p> <p>- The Fraser Engines Team</p> <p>*****</p>	1	6,999.00T
